## INTRODUCTION TO EGYPTIAN MAGIC

### Unifying the Two Lands

Magic formed the core of the ancient Egyptian society and their believe system. It was an indivisible part of their religion, and penetrated every angle of society. Heka (human magic) and Achu (divine magic) are closely related. Learn about the close connection between the forces of the Gods and the work of the magician on Earth, through Egyptian Mythology. ... *by Ina Cüsters-van Bergen*

On March 5<sup>th</sup> 2011 Ina will give a one-day intensive workshop on Egyptian Magic in London. The event is organised by the Atlantis Bookshop.

This one day intensive workshop will give you a deeper understanding of the pattern of myths, underlying the application of Egyptian Magic in the Western Mystery Tradition. You will learn about:

1. **The Divine Family.** During this training you will learn about the relations in the Egyptian pantheons of Gods. You will learn about the functions of the Gods, which are hidden in the archaic symbolism of Egyptian Magic.
2. **The Egyptian Gods as an archetypical language of causal abstract forces.** The ancient Egyptians talked in a symbolic language about the mysteries of the Cosmos and explained their exquisite philosophy in terms of nature symbolism.
3. **Practicing the ancient Egyptian spiritual system.** From this highly developed magical system, unfolded an intriguing form of shamanism, that develops in the magician the highest mystical states of consciousness.

4. **You will learn how Egyptian myths can be translated into magical exercises.** The myths can be red on several levels: historical, philosophical, cultural, political but also the spiritual teaching is accessible for modern magicians.
5. **You will lean to work with Egyptian magical symbolism,** and you will discover that it forms a key to the hidden matrix of psychic currents in nature. The magician develops an awareness about this relatedness, and learns to use these forces to 'cause effects'.
4. **The Boat of Millions of Years.** You will work with these principles during the ritual 'The Arrival of the Boat of Millions of years.' You will experience the powerful method of magical ritual drama. It is an intensive method to open up the participants to the hidden mysteries underlying the mythological stories. In this way you open these psychic fields of awareness inside yourself, and in this way these powers become accessible to you, to apply them in your own life.
