Introduction to High Magic

The Sacred Marriage between Heaven and Earth

A stunning new angle on the ancient Mystery Wisdom ... by Ina Cüsters-van Bergen

On November 27th Ina will give a one-day intensive workshop on High Magic in London. The event is organised by the Atlantis Bookshop.

Prepare yourself for an intensive workshop, where stunning new angles will give you a deeper understanding of the pattern of myths, underlying the Western Mystery Tradition.

1. **As Above, so Below.** During this one-day workshop you will develop a completely new view of the interconnectedness of Heaven and Earth. You will learn how the ancient priesthood worked with these principles in the Mystery Temples of Antiquity. This connection forms the root of our own spiritual tradition, and working with this connection will increase the effectiveness of your own magical work dramatically, doubling the effectiveness of your spiritual exercises.
2. **The 'Tilting of the Earths Axis'** was a radical event in Antiquity. It was the consequence of the growing understanding of the connection between heaven and earth. Radical decisions – made by the ancient priest-magicians of antiquity – veil certain important 'Higher Mysteries'. Ina will lift a tip of this veil, granting you access to some of the oldest Mystery texts.
3. You will learn how to transform causal forces through the Astral Images, from the Starry Heavens to forces working in the temple. You will practice these cosmic forces and transform them into powerful magical

currents. In this way you will learn to lead a cascade of forces to the altar, which cause strong phenomena of synchronicity.

4. You will learn to work with archaic nature symbolism, and you will discover that it is a language that leads you directly into the heart of the ancient western spiritual training systems, used in antiquity to train priest-magicians. In this way, High Magic was practiced as a spiritual training system in the ancient Mystery Temples.
5. **The Hidden Light of the Purple Lotus.** You will work with these principles during the ritual 'The Hidden Light of the Purple Lotus'. You will experience how these archaic images and principles open you up to a new dimension of beauty. Rituals or mystery plays are the forerunners of modern theatre. In a mystery play the story line builds up towards a Mysterium or a miracle. Mystery plays are a method of making a personal connection to the realm of miracles in yourself. They open you up to important transformations and their healing powers start to manifest in your own life.
