THE CALL OF THE SPIRIT GUIDES

Unfold the Magical Triangle and walk the steep road towards the stars

The call of the Spirit Guides is the start of an extraordinary journey, leading into the Dark Night of the Soul ... by Ina Cüsters-van Bergen

Are you ready to undertake the Mountain Climb into the higher realms of the Tree of Life? The journey into the spiritual worlds is often compared with a mountain climb. During these five intensive days full of ritual, lectures and meditation

- You will be called and helped by Inner Plane beings, and you will slowly open up to their reality.
- You will learn magical exercises that will increase your magical powers.
- Mythological drama will open you up to the reality of the Inner Worlds.
- During these lessons we will as well expand on building the Interior Castle of the Soul.
- You will learn how to work with ancient myths, and to search for the deeper meaning behind symbols. You will apply what you have learned in ritual and mystery drama

1. **The Sea Mother** In this lesson you will learn some secrets about the nature of the Universe. Who is the Sea-mother who lives between the Stars? What can we learn from her mythology. Spiritual work is like fishing, but who is fishing, and who is the fish?
2. **The Purification Mountain** Mountains were often used as a sacred symbol. A mountain path is often a metaphor for the journey of the soul. You are called by the spirit guides of the Higher Realms. Who is calling? Meet your guides on the road and hear the whisperings of the Higher Mind on the Path of

3. **The Temple of the Lady with the Shining Face.** Entering the Sephirah Netzach, you will learn some of the secrets of Magical Polarity and using the Powers of Attraction. More spirit guides will make themselves known to you. Learn to tune into those realms of inspiration, and how to use the Arts to improve your magical work.

4. **The Garden with the Two Fountains** In the Garden of Delight the Voice of Divine Love becomes a part of your personal experience. The spirits will contact you in your sleep, during your meditation, and on off-moments. You will learn exercises to improve the Contacts, and to invoke their powers.

5. **The Sacrifice of the Son of the Morning** The road ascending the Mountain takes another turn, and you will work with the mythology of the Heavenly Battles. Why are there battling forces in the Universe, and how do they fit into the schedule of the Unfolding Universe. Why do some gods sacrifice themselves?
