*The Theme of the Temple Training program of this semester is:*

## THE ISLAND OF FIRE

### **Light the Inner Fires and turn the Wheel of Fortune**

The Island of Fire is an Inner Temple. Inner Temples are important psychological structures who can be used to create powerful magical effects. The Island of Fire is the place where the fires of purification are lit. Here the Inner Planes guard the values and virtues of individuals and of communities. In the centre of this Inner Temple we find the scales of equilibrium and of harmony. But to achieve this inner balance you need to light your Interior Sun and take a good look in the mirror of your Self. With that knowledge you can increase your magical powers dramatically.
